

I-FLY: Enabling an effective UAV-as-a-Service Market

Friday, Dec 4th

11:00 – 12:15 CET

Circuit

AGENDA

- 11:00 | Welcome and introduction
- 11:05 | I-FLY Marketplace for enhancing inspection operations using drones + Demo
Through a user-friendly interface, the marketplace allows both, drone service providers and Critical Infrastructure operators, to contract and automate the deployment of advanced services on drones, Cloud or Edge devices.
- 11:25 | Advanced detection services + Demo
The services available on the marketplace offer advanced detection capabilities, alert generation, and other features, leveraging AI and CV technologies
- 11:45 | Use Case: Power lines inspection
Know the success story with Ferrovial Power Infrastructure (FPI) which has tested and validated the effectivity of different services provided by I-FLY Marketplace
- 11:55 | I-FLY Business Model
Opportunities and business perspectives for introducing and commercializing I-FLY into the market
- 12:00 | Q&A
